

DCP Web development

README: PROJECT OVERVIEW

DCP structure: (check and coordinate with the proposed task and timeline)

Overview: This is the result of a Positron Emission Tomography (PET) technology research project.

The following are the highlights of the technology development and evaluation.

- Motivation
- Objective
- Scope
 - o What it can do
 - o The level of coincidence pairs and PET system
 - o
- Material and method
- Technology development and evaluation
- (Link to NIH website?)
- Acknowledgment: supported by the NIH funding R03xxxxxx,
